[Registration Link 6/27](#)

Join us on Sunday, June 27 for an inclusive virtual program just FOR FAMILIES, inspired by Katie Grinnan's 2003 sculpture, *Hubcap Woman*.

Led by MOCA Education & Visitor Engagement, each 45-minute For Families workshop features deep looking and conversation, a unique art activity, and helpful tips for adults on how to talk to kids about art.

In this workshop, create and share your own sculptural extension of your body. The only materials you'll need: an interesting everyday object, paper, tape, and scissors!

Spanish and ASL interpretation is available at all For Families Workshops.

We hope to see you there!

Here's a sneak-peek of next month's artwork!
